### Input:

```
#include<stdio.h>

int main()
{
    int per;

    printf("Enter per:");
    scanf("%d",&per);
    if(per>80)
    {
        printf("A grade.");
    }
    else
    {
        if(per>=70)
        {
            printf("B Grade.");
        }
        else
        {
            if(per>=60)
```

```
{  
    printf("C Grade.");  
}  
else  
{  
    if(per<=45)  
    {  
        printf("D Grade.");  
    }  
    else  
        printf("FAIL.");  
}  
}  
  
return 0;  
  
}  
}
```
